AN/AAQ-28(V) LITENING Targeting Pod

Northrop Grumman's widely fielded LITENING system is a combat proven, self-contained, multi-sensor targeting and surveillance system. LITENING enables aircrews to detect, acquire, auto-track and identify targets at extremely long ranges for weapon delivery or nontraditional intelligence, surveillance and reconnaissance missions. LITENING's 1K FLIR, 1K charged-coupled device (CCD), laser imaging sensors, advanced image processing and digital video output provide superior imagery, allowing aircrews to identify and engage targets under a wide range of battlefield conditions.

LITENING is in operation worldwide

The pod is currently flown by the U.S. Marine Corps, all components of the U.S. Air Force, and international customers. The latest configuration, LITENING G4, is authorized for export to NATO countries, including Canada, the United Kingdom and Korea.

La guerre : qu'en pense Dieu ?

La réponse de la Bible pourrait bien vous surprendre.

Effectivement on a de quoi être surpris **qu'une organisation qui prétend représenter Dieu sur la terre puisse tirer profit d'investissements dans des sociétés qui fabriquent des armes de destructions massives**, car il peut y avoir un **conflit d'intérêts**.

et vous connaîtrez la vérité, et la vérité vous libérera » (Jean 8:32)
